

Spinners and Grinders Cycle Club Kit

There is nothing better as a cycle club than heading out for a group ride in the same club kit.

Our kit has been designed by the committee members, with a key eye on detail, to make sure that everyone looks good and feels great.

We have teamed up with Pro Vision to create our unique and striking clothing options. Pro Vision use the finest European materials and craftsmanship available. Every last detail of our custom product line has been scrutinized until it has reached the approval of our committee. We have also focussed on ensuring that all your clothing needs are met, not just jerseys and bib shorts, but a full range of arm warmers, leg warmers, skin suits, hats, socks and much more. Everything you will want is available to buy at a very reasonable price.

Please note, club kit is only available to paid and registered members. Once you have completed the joining process and have been registered on our club page with British Cycling, the committee will send you details of our portal, to enable you to order.

Check out our some of the available options below:

Velodrome Jersey
